-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

#### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Drawings***

1. The drawings are objected to because reference numerals 9 and 11 point to the same part in Figure 1 and are not consistent with those in Figures 2 and 3. Corrected drawing sheets are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

### ***Claim Rejections - 35 USC § 102***

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

Art Unit: 2839

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1-14 and 16-19 are rejected under 35 U.S.C. 102(b) as being anticipated by Bowen et al. (4418983).

Bowen (Figures 1-10) shows a connecting device for providing an optical connection between an apparatus with a plurality of ports 73, 75 for receiving at least two adapters with connectors 64, 66 coupled with optical fibers 60, 62 mounted on a support plate 68, each adapter having a connection with the ports and a connector contact with the connectors. The support plate has two opposing ends providing a grip for concurrently contacting all the adapters to the ports. The adapter contacts and apparatus ports provide a plug connection. The end portions and the adapters are in a straight line. The adapter can be adapted for single mode or multi-mode connections. The device includes at least one locking device 72 providing a fixed position between the adapters and the ports as well as another locking device consisting of flange 70 and cantilever fingers 42, 44. Bowen shows two types of plates and adapters, one for a single plug 38 and one for a duplex plug 58.

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

5. Claim 15 is rejected under 35 U.S.C. 102(b) as being anticipated by Arnett (5530787).

Art Unit: 2839

Arnett (Figures 1-6) shows a connecting device for providing an optical connection between an apparatus with a plurality of ports for receiving at least two adapters with connectors 73 with optical fibers 74 mounted on a support plate 70, each adapter having a connection with the ports and a connector contact with the connectors. The support plate has a receptacle adapted for mounting a cable channel for receiving, protecting and guiding fibers.

### ***Conclusion***

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Brown et al. (5297227), Chapman et al. (5980312) and Chen et al. (6371657).
